

A short report on the Tran Aq

Well, they've done it!! All have finished successfully after what has no doubt been a long week. Ripon Runners were third team overall which is mighty impressive given the quality of distance runners that were taking part. Lynda Wilson came second in her age group and has had a storming run. All have had a great time (now it has finished and they are reflecting on it!) It has at times been wet (very) or hot (yet again very). As far as I know all are well and in one piece (although Mike has said his feet resemble chopped liver – so they should be pleasant!) They arrive back home tomorrow at 10.00pm(ish) at York station should anyone be in the area to greet them. A brief table of overall results below but if you want to you can go to the Trans Aq Website – click the French flag, look at classements 2008 for full results. There will no doubt be a longer report to follow as all the details of the highs and lows of the week are told.

(Apologies for any biased reporting but I am very proud! –Emma)
